**\*Title:**

Resolution of Stage II Fire Restrictions and Declaration of Fire Emergency in Unincorporated Pima County

**\*Introduction/Background:**

Due to severe drought conditions and increased wildfire activity, the Arizona State Forester has recommended the implementation of Stage II fire restrictions effective May 12, 2025.

**\*Discussion:**

In response to severe wildfire conditions and the Arizona State Forester's recommendation, the proposed action would implement Stage II Fire Restrictions on all Pima County and Regional Flood Control District lands located in unincorporated areas. The restrictions prohibit all open flames, including campfires, charcoal, coal, elevated grills, and wood stoves—even in developed areas—and restrict spark-generating activities such as welding, unless essential and conducted with strict safety measures. These actions align with state fire prevention efforts and reflect the County's responsibility to protect residents and natural resources amid growing wildfire threats.

**\*Conclusion:**

Adopting the Stage II Fire Restrictions and declaring a fire emergency are necessary steps to protect public health, safety, and property during this period of elevated wildfire risk. These measures align with state recommendations and ensure coordinated efforts to mitigate fire hazards in unincorporated areas of Pima County.

**\*Recommendation:**

It is recommended that the Boards adopt Stage II Fire Restrictions, declare a fire emergency, and authorize the Board Chair to exercise emergency powers under A.R.S. § 26-311 until further notice.

**\*Fiscal Impact:**
